

**Hoover Uncommon Student Award
\$5000 Award Program for Iowa High School Juniors**

Dear Educator,

Do you know a High School Junior who is uncommon?

Enclosed is a poster to display and several brochures to share with High School Juniors about The Herbert Hoover Uncommon Student Award program.

The goal of the Herbert Hoover Uncommon Student Award (USA) is to challenge young Iowans to be uncommon, as that relates both to Herbert Hoover's life and to the ideals which he held.

Applicants are evaluated on standards other than grades, test scores, and financial need. The students propose and complete projects of their own choosing

There is an opportunity for them to be awarded \$6,000 to be used toward furthering their education.

Please share this uncommon program with project minded juniors. It is so much more than an award program; it encourages students to become leaders, take on responsibility, promotes self-confidence and creates a sense of accomplishment.

PLEASE SHARE WITH HIGH SCHOOL JUNIORS
